❑ **OUTPATIENT TREATMENT:** *Our full service Outpatient program serves both SUD and OUD clients using the MAT medication of Suboxone, Vivitrol and (Methadone using a third party provider).*

❑ **RECOVERY SUPPORT SERVICES:** *Our Recovery Support Service (RSS) Unit is an integral part of our broad recovery program. The goal of RSS is to nurture and sustain recovery. A wide variety of services across most of the recovery capital domains are provided by this unit during treatment and aftercare. Longer term recovery supports services are facilitated through establishing community-based connections. We are able to monitor and evaluate sustained recovery through a robust tracking system and assist client through all phases of their recovery process.*
